WICK CHAFING FUEL

APPLICATION:

DINE-AGLOW DIABLO™ Food Service Fuels manufactures Diablo® Wick Chafing Fuel which is a nonpoisonous, clean burning Diethylene Glycol (DEG) chafing fuel that comes in various burn-times and heat outputs. This economical, convenient, food warming product is designed to keep chafing dish food pans consistently at their FDA regulated temperature. Diablo Wick Chafing Fuel led the industry from the traditional and dangerous gel fuel to the much safer, more efficient wick fuel. Diablo Wick products are odor-free, smokeless, non-toxic, non-hazardous and void of the inherent hazards of ethanol fuels. Diablo Wick has an all steel metal package and steel screw down cap which makes it safe to handle, store and transport with no restraints.

PRODUCT FEATURES:

- Active Ingredient: Diethylene Glycol (DEG)
- Patented wick design makes it the fastest product to reach maximum heat output and maintain that heat output for duration of product
- Impeccable customer service for over 50 years
- Clean burning, non-toxic, non-hazardous, odor free
- Tested to guarantee quality and 100% Combustion
- Stay cool can is safe to handle even when in use
- No DOT restrictions
- True Burn-Time Guarantee® - guaranteed to burn as advertised

SUGGESTED USE:

- Chafing Dishes, Hot Boxes, Holding Carts and Food Warming

**TRUE BURN-TIME GUARANTEE®
REACHES MAX
HEAT FASTER**
